

## Welcome to Yarra's Edge Marina July 2018

### Our first newsletter

With lots going on at Yarra's Edge, we want to keep you up-to-date with all the happenings, hot tips for things to do in the city and any special offers that might come our way.

We would also love to include any contributions you might have, just send us your news to [berthing@melbourne.vic.gov.au](mailto:berthing@melbourne.vic.gov.au)

### Meet our team

Say hello to the Waterways team, you'll see us out and about around the marina, otherwise give us a call.

With a vision of developing Docklands to become a thriving destination for leisure, recreation and commercial boating, the Waterways team works on the planning and delivery of strategies and activities. Based in Docklands and currently managing over seven kilometres of waterfront including commercial berthing, Melbourne City, River Homes and Melbourne Superyacht Marinas'.

Melbourne City Marina has been awarded a five Gold Anchor accreditation and Clean Marina certification ensuring the highest standards of marina management will continue to be delivered at Yarra's Edge Marina.

## Visitor bookings

Do you know someone who's visiting the marina via boat?

Visitor berth bookings for Yarra's Edge public berths can be made online for up to 90 days. Login to the Customer Portal to make a booking to berth by clicking [here](#)

## Do you have a vacant berth?

Our goal is to fill all vacant berths with boats.

In September we will be uploading berth vacancies onto our award-winning cloud software system, giving potential customers the ability to book a berth any time, day or night.

If you have a vacant berth and would like to see it put to good use, contact us to express your interest.

## New look marina office

If you want to make a coffee, watch some late night tv or do some washing, you now have 24 hour access to the lounge, washer and dryer. Perfect for the insomniacs.

Over the next couple of weeks, you will see the marina is a hive of activity. We are giving the lounge a spruce up ahead of improvements to access for marina users.

## Seabin cleaning up!

As the only Seabin operating in Australia, we are proud to be trialling this new technology that works towards keeping the marina, cleaner. You can currently see it in action in the marina.

The V5 Seabin unit is a floating debris interception device designed to be installed in the water of marinas, yacht clubs, ports and any water body with a calm environment and services available.
